
Local COVID-2019 Updates:
- The 2019 Novel Coronavirus (COVID-2019) is a rapidly evolving situation. Members of the public are urged to keep up to date by visiting trusted public health resources.
- The Bernards Township Health Department is closely monitoring any local suspected cases and keeping updated on the most current information from trusted sources such as the NJDOH and CDC.

CDC Recommendations – Share Facts, Not Fear:
- You may see large gatherings or events being cancelled or postponed. You may also be urged to cancel your own events. Do not be alarmed, this is being done as a pre-caution for the public.
- Local testing will be available through private doctors and laboratories and the NJ State Laboratory.
- If you need to travel, use every day preventative actions and stay updated through travel advisories issued by the CDC. Avoid non-essential travel.
- Symptoms of COVID-2019 are similar to the flu and include fever, cough, and difficulty breathing.
- Every day preventative actions can help prevent the spread of respiratory viruses:
  - Most face masks will not protect against the virus, and most studies suggest it is more effective to equip individuals with symptoms with masks to isolate the illness.
  - If you suspect you are ill, isolate yourself from other individuals, cover your face with a mask, wash your hands with warm water and soap, and call your healthcare provider immediately.
  - There is no vaccine to prevent COVID-2019 or specific antiviral treatment recommended for COVID-2019. People with COVID-2019 should receive supportive care to relieve symptoms.
  - The CDC says to prepare for a potential widespread outbreak of COVID-2019 in the United States.
- For information on proper hand hygiene, please visit https://www.cdc.gov/healthywater/hygiene/hand/handwashing.html.

The Bernards Township Health Department is the contractual health agency serving Bernards Township, Bernardsville Borough, Chester Borough, Long Hill Township, Mendham Borough, and Peapack and Gladstone Borough. For update links and more information, visit: http://www.bernardshealth.org.
