

FREE Stroke Screening

Screening Includes:

- ❖ Total Cholesterol, HDL
- ❖ TC/HDL ratio
- ❖ Blood Sugar
- ❖ Blood Pressure
- ❖ Pulse Check
- ❖ Carotid Artery Exam

Are You at Risk for Stroke?

You can reduce your risk for stroke.

- ❖ Start by becoming more aware of your risk factors – the personal characteristics and habits that may increase your chances of having a stroke.
- ❖ Some you can't change or control, some you can.
- ❖ Learn the warning signs of stroke and what to do if you or someone near you begins to exhibit signs of a stroke.
