

Prostate Cancer Screenings

One out of every seven men will be diagnosed with prostate cancer.

As part of a longitudinal research study, free PSA (blood test) and exam will be offered to high risk* men 35 and over and all men 40 and over with no personal history of prostate cancer. Participants must sign informed consent and complete a questionnaire.

Saturday, September 23 • 9 to 11 a.m.

Wednesday, September 27 • 2 to 5 p.m.

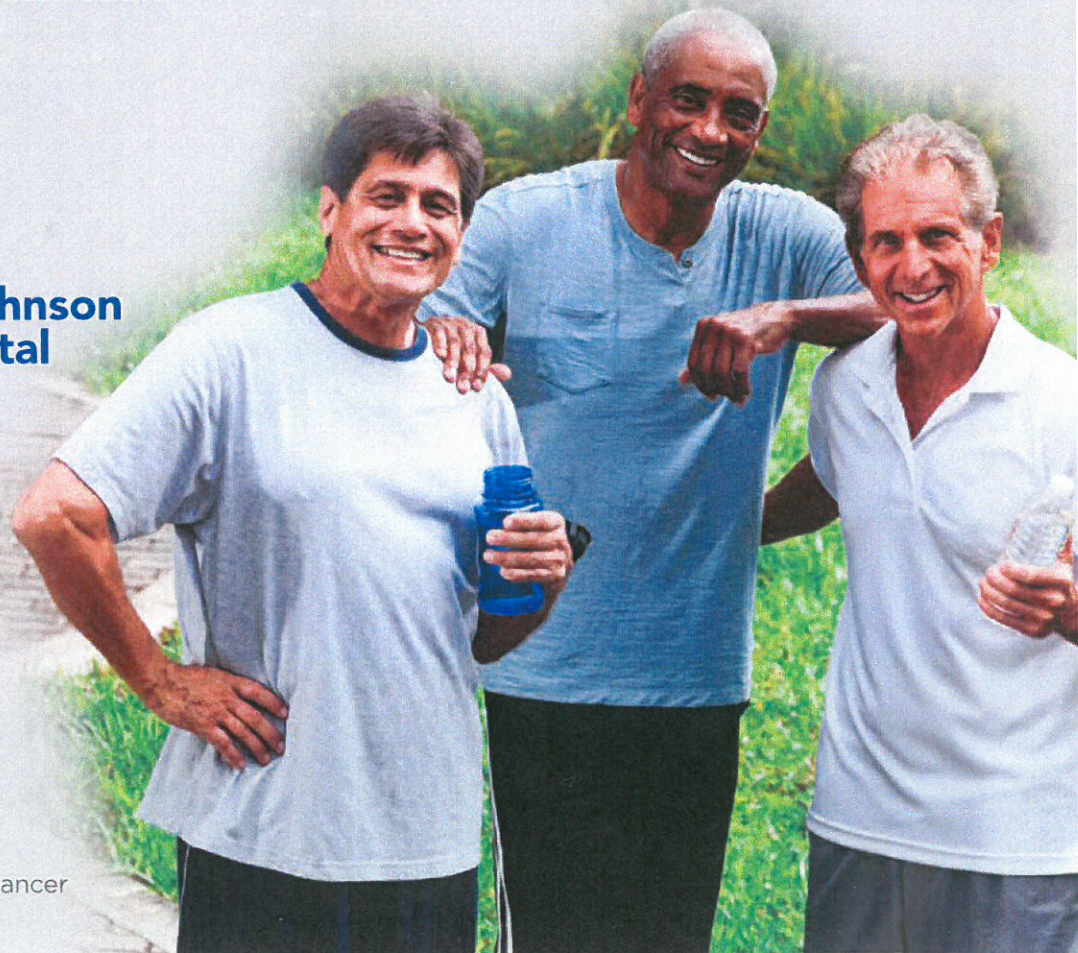

Steeplechase Cancer Center • Suite 2300 • 30 Rehill Avenue, Somerville

This event is FREE, but registration is required.
