COVID-19 Vaccine Emergency Use Instructions (EUI)

On November 17, 2021 the CDC issued **Emergency Use Instructions (EUI)** to provide information about the use of the Pfizer COVID-19 vaccine as an additional primary dose (for those 12+) or a single booster dose (for those over 18) after completing a primary vaccine series with a COVID-19 vaccine not authorized or approved by the FDA. EUI are issued by the CDC to provide more information about the use of EUA authorized products.

For example, if someone was vaccinated outside the United States, or participated in a clinical trial for AstraZeneca, Novavax or Sinopharm, they may be eligible to receive an additional primary or booster dose. To learn more and see if you are eligible, [visit the CDC website.](#)
