 - Coordinating homebound vaccinations for individuals who are bedridden and/or disabled
 - Continuing to catalog a list of available resources to help vulnerable populations access critical resources such as social services, mental health services, and general healthcare. Also includes access to resources like food banks, mental health services, visiting nurses, telehealth solutions, and other community programs.
 - Prioritizing COVID-19 response initiatives such as weekly COVID-19 testing and vaccination clinics.
 - Regularly monitoring COVID-19 related data received through testing and contact tracing.
 - Working with other local health department VPOCs in NJ to create collaborative opportunities and resources through monthly meetings.
 - Collaborating with local faith-based organizations to implement COVID-19 testing and vaccination clinics in underserved communities
- Vaccination Efforts
 - Vaccine clinics were conducted throughout February at Saint James Church. Pediatric Pfizer was offered on Mondays, Pfizer for 12+, Moderna, and J&J were offered on Tuesdays.
 - Contacting volunteers as needed according to skills, such as Spanish-speaking or nursing license. Received several inquiries regarding and requesting medical professionals who may be interested in helping.
 - Staff responsibilities for vaccination clinics are continuously discussed.
 - Clinic supplies have been assessed and prepared to ensure we can continue vaccination efforts. The Public Health Nurse is ordering supplies and maintaining inventory.
